

Management Committee

The SBMAQ Management Committee consists of 17 dedicated and supportive Business Services Managers from around the state who give their time freely to ensure all Business Services Managers have access to Professional Development, mentoring and networking opportunities. We are a recognized body of Education Qld staff and members of the Management Committee and non-management members participate on a range of reference groups and meetings with key personnel on a wide range of issues.

History

On 26 November 1999 *State wide Association*, the Queensland School Registrars' Association, was formed to provide its members with professional development and support. In 2007 the title of Registrar was replaced with that of Business Services Manager and the name of the association was changed to School Business Managers' Association Queensland
